

TRAFFIC ENGINEER II

Develop your skills, advance your career, and grow with our firm.

Who We Are:

Carpenter Marty Transportation is a leading civil engineering firm that specializes in infrastructure design. Our expertise lies in bridge, roadway, and traffic engineering; project management; public involvement; survey; right-of-way design; and operational analysis. We have office locations in Columbus and Cincinnati, Ohio, and Charleston, West Virginia.

Day in the Life:

Join our team and make a tangible impact in our region! As a crucial member of our team, you will work on various types of traffic design and planning projects. Projects include traffic signal/signal systems, highway lighting, signing and pavement markings, maintenance of traffic plans, and traffic control. Clients include both the public and private sectors. You will be working on projects from initial planning through construction allowing you to see your work come to fruition.

Our collaborative, open office environment allows you to work with colleagues across multiple disciplines to provide the highest quality plans, studies, and customer service. Our management style provides support for employees to thrive and develop their design passions into a fulfilling career. You will mentor younger staff, check/review technical work, and coordinate with clients and other design consultants.
