

ROADWAY ENGINEER

Develop your skills, advance your career, and grow with our firm.

Who We Are:

Carpenter Marty Transportation is a leading civil engineering and architecture firm specializing in infrastructure design. For more than 25 years, we have partnered with public and private clients to deliver innovative, high-quality solutions that make our clients' work easier and contribute to a better built environment. With offices in Columbus and Cincinnati, Ohio; Charleston, West Virginia; and Nashville, Tennessee, our success is driven by experienced leadership, employee ownership, and a client-focused culture grounded in excellence, responsiveness, collaboration, and continuous improvement.

Day in the Life:

Join our team and make a tangible impact in our region! As a crucial member of our team, you will work on the production of roadway design plans for various transportation clients in the public and private sectors. Projects include preliminary and detailed roadway plans, maintenance of traffic schemes, roundabout designs, drainage improvements, and cost estimates. You will be working on projects from initial planning through construction allowing you to see your work come to fruition.

Our collaborative, open office environment allows you to work with colleagues across multiple disciplines to provide the highest quality plans, studies, and customer service. Our management style provides support for employees to thrive and develop their design passions into a fulfilling career. You will mentor younger staff, oversee and review technical design work, and complete reports, approach documents, and presentations.
